

1. Midnight "Build-a-thon" (work at night)

- * participate work on a prototype overnight, silicon valley hack culture.
- * No sleep, just pure execution, judges arrive at sunrise.

2. "Tech Carnival" (Mix learning and fun)

- * workshop + fun activities. inspired by japanese and western University.

3. "TEDx + shark tank" (Investment event)

- * student pitch there startup ideas to real investors.
- * Inspired by shark tank.

4. "AI speed Dating" (Networking)

- * AI matches participants for a quick 3 min convo based on their interests

5. "Tech Treasure Hunt" (AR+AI powered)

- * A city wide or Campus wide tech treasure hunt where students use AI, QR codes and AR to find challenges.
- * Each station has a puzzle related to AI, Cybersecurity or coding that they need to solve to get the next clue.

6. "AI vs HUMAN"

- * AI vs HUMAN Debates, AI coding battle, AI art show down.
- * Inspired by Deepmind vs chess Grandmaster (UK).

7. "AI Manipulation" (game)

- * Manipulating AI and getting the illegal answers.

"Speedrun Coding Championship"

- * solve 10 coding problems in a particular time wins. The faster you solve the more points you get.
- * Blind Coding.

9. Build & sell startup (24 hrs)

- * Teams get a random product idea.
- * They should start working on pitchdeck, website and prototype.
- * Conducting a shark tank to real investors.
- * Inspired by Silicon valley startup Culture (USA).

10. "Hack the Future: Build tech from 2050"

- * "Design an AI assistant for astronauts on mars"
- * "Build an Neuralink-style brain-Computer interface"
- * Let them design, prototype and present their futuristic idea.
- * Inspired by MIT Media Lab's Future tech Research.

11. "Anime x AI Hackathon" (for the weebz)

- * An hackthon where all projects must be Anime themed.
- * AI that translate English to anime voices.
- * AI that generate anime characters based on your personality.
- * AI waifu chatbots.
- * Inspired by Japan's AI anime tech.

12. AI Rap battle and meme war (AI musical contest)

- * AI rap battle: Students use AI to generate raps, then perform live.
- * AI meme generator Battle: who can make the funniest AI generated meme?
- * Inspired by AI generated Content culture in the USA & UK.

13. Speed typing Contest (5)

14. "Time travel: Live a Day in the 1900" (creativity)

- * No phone laptop or modern tech allowed for 24 hours.
- * Student live like its the 1900s.
- * Solve problem without google, Communicate only via letters.
- * Inspired by "Victorian-era London & Samurai-era Japan".

15. "Gladiator coding: code in Extreme Conditions"

- * Round 1: Solve coding problems while loud rock music plays.
- * Round 2: solve bugs while being lightly shocked.
- * Code while standing on a balance board.
- * Inspired by Silicon valley Extreme Coding practice.

16. "Mystery Box invention challenge (School)"

- * Students get a surprise box with random items & must invent something useful.

17. Startup on another planet

- * How would you sell AI robots to aliens on Mars?
- * etc.
- * Inspired by "Elon Musk space X vision & Global Business strategy games."

18. "Build a Business in 24 hrs" (Entrepreneurship) **

- * Give student 0\$ and make them earn money creatively one day.
- * They must sell a product, service or skill to generate cash.
- * Whoever earns the most in 24 hours wins.

19. "Live like a CEO for a day". (Mindset and Leadership) * *

- * They experience a real-time pressure, take quick decisions and handle business challenges.

- * Fake investors fire bad leaders on the spot.

20. "The no internet survival challenge" (problem solving + creativity) *

- * survive 24 hours without using the internet.

- * No google, no chatgpt, no wikipedia - only books, teamwork and logic.

- * Team must solve a set of real world.

21. "Escape the Fake news" (social Awareness + Fun).

- * They're given 5 viral news articles or videos - some are real, some are fake.

- * Teams should aware ~~the~~ and find the fake article.

22. "Hack Your Brain Optical illusions & Psychology Games" (Mind-Blowing)

- * Memory Recall games
